

University Makes a Difference Program

Explore what it's like to be a university student before you finish school.

University Makes a Difference Program

Get a taste of life as a university student with our *University Makes a Difference* program. Offered through Adelaide University, this program kickstarts your university journey by introducing you to the basics of university life and study.

You'll complete a fee-free short course at your school as part of your SACE, exploring a research topic that's important to you and your community with the support of your teachers and Adelaide University staff.

Access university resources (such as the library and campus facilities) and a dedicated online course site with all your readings and materials.

Take a university campus tour, meet staff and students, and discover the important role universities play in building your knowledge to solve problems for your community.

After completing the program, you'll be prepared with the skills and confidence to apply for a university degree, or undertake Foundation Studies - a fee-free pathway into university.

For more information about the program, contact Associate Professor Sarah Hattam, Director, Domestic Pathways.
