

**2027 student guide**

# Postgraduate coursework

# Tirkangkaku is the Aboriginal name bestowed upon Adelaide University by the Kurna People.

Tirkangkaku means "Place of Learning" and is a gift representing 65,000 years of continuous discovery.

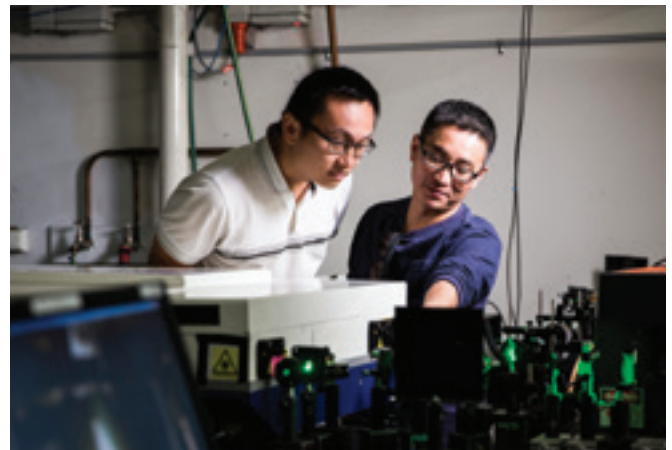

In Kurna culture, learning is never passive – it's active and transformative.

Tirkangkaku is a place where all knowledge systems can come together and learn from each other. A place where the world's oldest living culture shapes cutting-edge discovery. A place where we are creating the future, while honouring the past.

### Acknowledgement of Country

We respectfully acknowledge the Kaurna, Boandik, and Barngarla First Nations Peoples and their Elders past and present, who are the Traditional Owners of the lands that are home to our campuses across Adelaide and South Australia.

### Member of the Group of Eight

Australia's leading research-intensive universities.

### Ranked #82 in the world

and 8th nationally in the 2026 QS World University Rankings.

# Welcome to Adelaide University

**Adelaide University is Australia's  
university for the future ranked  
in the global top 100.\***

*\* Ranked equal 82, 2026 QS World University Rankings*

**W**e are transforming higher education by combining face-to-face learning with advanced digital technologies to create a flexible, student-centred experience. Degrees are designed to be stackable and personalised, supported by digital learning, industry partnerships and extensive work-integrated learning opportunities.

The Common Core provides interdisciplinary skills that employers value – ensuring students graduate with real-world knowledge and experience. Across all programs, Adelaide University fosters strong graduate qualities, embeds First Nations perspectives and provides equity-focused support so every student can succeed.

### Go8 member

We are part of Australia’s elite research-intensive university group.

### Connected

Australia’s most connected university: Building on our 7,000 strong partnerships with industry and collaborators.

**7,000**

### Real-world

Real-world experience: Work-integrated learning is embedded across all programs, giving students hands-on opportunities.

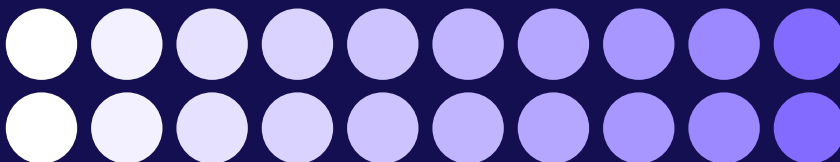

### Equity and inclusion

We champion inclusive education through First Nations Knowledges and equity-focused pathways.

Transformative and flexible education: Australia’s most accessible, contemporary and future-focused teaching and learning experience.

### Transformative

# The Adelaide Attainment Model

Adelaide University is redefining what the future of higher education looks like in Australia.

**H**ere, traditional learning meets the future – face-to-face experiences enriched by the latest digital technologies, giving you the flexibility to learn your way, while staying deeply connected to your peers and teachers.

We aim to foster the most flexible, future-focused learning and teaching environment that puts you at the centre.

Your studies won't be confined to just the classroom. You'll work alongside industry leaders who help shape what and how you learn, ensuring every experience is practical, relevant and inspired by the real world. Through hands-on projects and professional collaborations, you'll gain the skills and confidence that future employers are already looking for.

But your education at Adelaide University goes beyond preparing for a career – it's about readying you for the world. Under the guidance of expert industry partners, you'll learn to think critically, act ethically and create inclusively, ready to shape an innovative and global future.

# Education for the future

## Stackable degree structures

Our degree structures allow multiple entry pathways and transition points, creating individual and personalised study journeys. You can easily transition between undergraduate programs, and we offer a range of innovative options to extend your undergraduate studies into postgraduate pathways.

## Digitally rich learning environment

At Adelaide University, digital technology is not just a tool for delivering content – it provides instant content delivery to support active learning, collaboration, and engagement, enhancing the accessibility and personalisation of our teaching and learning.

## Industry informed curriculum

Connect with professional networks while you study. Our curriculum is designed in partnership with over 7,000 industry partners, including those who collaborate on research with Adelaide University. This means the skills we teach are contemporary and industry aligned, informed by the engaged research we undertake, and designed to shape employable graduates.

## Community embedded learning

Work-integrated learning – such as placements and clinics – is a key part of our education and is embedded in every program we teach. This hands-on experience provides practical, applied knowledge, and helps students develop a professional network, so you graduate with strong industry experience and contacts.

Depending on your chosen degree, work-integrated learning can include:

- **Internships and placements:** Get hands-on experience by working with real organisations in your field as part of your degree.
- **Industry projects:** Collaborate on real-world projects that solve genuine industry or community challenges.
- **Simulation:** Build practical skills through realistic workplace simulations or online experiences.

## Interdisciplinary understanding: The Common Core

The Common Core is a suite of interdisciplinary courses designed to prepare Adelaide University graduates with transferable skills employers value most. These courses foster collaboration and broad perspectives, and an understanding of how each field shapes and connects with society.

You'll select the Common Core courses you want to study from six knowledge areas, engaging with peers across the university, including:

- **Artificial Intelligence:** Introduces the fundamental principles, techniques, and real-world applications of AI.
- **Data Knowledges:** Explores data types, sources, and structures, best practices for collecting, managing, and analysing data, and strategies for evaluating and communicating information effectively.
- **Entrepreneurship and Design Thinking:** Develops the tools and mindset to identify opportunities, develop sustainable solutions, and drive positive change.
- **Ethical Knowledges:** Uncovers the fundamental principles of moral reasoning and their application to real-world situations.
- **Intercultural Understanding:** Fosters cross-cultural communication and competency and a deeper understanding of how one's cultural background shapes life experiences.
- **First Nations Knowledges:** Learning and centring Aboriginal voices and ways of knowing, being and becoming.

## The Adelaide Academy

The Adelaide Academy is a future-focused initiative designed to offer high-potential and high performing students the opportunity to take their studies to the next level. As Adelaide University establishes itself, the Academy will grow to offer a suite of enriched learning experiences that go beyond the core curriculum, including:

- Advanced discipline-based coursework
- Industry engagements and internships
- Research projects
- Interdisciplinary workshops and challenges.

The Academy is being developed to recognise and support academic excellence and ambition and will evolve over time to reflect the needs of high-performing students and the expectations of a competitive global workforce.

## Fostering our Graduate Qualities

At Adelaide University, our Graduate Qualities are about more than just what you learn – they're about who you become. These values and skills are built into everything we teach, helping you grow into a confident, capable graduate ready to take on your future.

You will graduate as a:

- **Lifelong learner**, with enduring passion for personal and professional development.
- **Ethical leader**, who does what is right over what is easy.
- **Strategic problem solver**, who approaches challenges with analytical rigour and creative insight.

- **Global citizen**, with respect for your role in the world and your capacity to enact positive change.
- **Resilient thinker**, able to succeed by harnessing critical, creative and adaptable thinking.
- **Trusted communicator**, who can articulate ideas effectively and inspire change.

## Embedding First Nations knowledges

At Adelaide University, you'll learn from and with Aboriginal voices, perspectives and knowledge holders.

First Nations Knowledges are woven throughout your studies, in all study areas, through genuine collaboration with Aboriginal scholars, Elders, and communities – ensuring cultural respect, inclusion, and understanding are part of every learning experience.

## Our equity-aligned education

At Adelaide University, we believe everyone deserves the chance to succeed. We offer equity-focused pathways and personalised support to help you overcome barriers and achieve your study goals.

This includes:

- An environment that supports diverse student participation.
- Equitable access to a world-class education for learners of potential.
- Advancing the access, participation and success of First Nations Peoples.
- Supporting you through your university experience to help you succeed in your learning and career journey.

# Find your pathway

You can use either your professional experience or your previous study as pathways to postgraduate study.

Qualifications and experience	I have 5 years of professional experience.	I have a bachelor degree. Expand your qualification in a new or related discipline.	I have a bachelor degree with honours or postgraduate qualification with a research component.
	Be recognised for your work experience and advance your career with a formal qualification.	Build on existing knowledge or change career direction.	Take your research to the next level.
Degree eligibility	<p><b>Graduate Certificate</b></p> <p>Even if you haven't studied at university before, you may be able to use your extensive work experience as a foundation to complete a graduate certificate by studying four courses.</p> <p><b>Duration:</b> From 6 months full-time</p>	<p><b>Graduate Certificate or Graduate Diploma</b></p> <p>Use your bachelor's degree as a pathway to specialised knowledge in a new or existing discipline or professional area. Take the next step towards a master's degree and expand your career options.</p> <p><b>Duration:</b></p> <p><b>Graduate Certificate</b> From 6 months full-time</p> <p><b>Graduate Diploma</b> 1 year full-time</p> <p><b>Master by Coursework</b></p> <p>Give your career a real advantage and become an expert in your field. Build on your bachelor's degree or develop knowledge and skills in a complementary study area.</p> <p><b>Duration:</b> 1–2 years full-time</p>	<p><b>Graduate Certificate in Research Skills</b></p> <p>Gain the specialised knowledge, skills and experience valuable for conducting research at the master's level.</p> <p><b>Duration:</b> 6 months full-time</p> <p><b>Master of Research</b></p> <p>Carry out a significant piece of supervised research in your area of specialisation and present advanced findings in a thesis.</p> <p><b>Duration:</b> 1.5 years full-time</p> <p><b>Doctor of Philosophy (PhD)</b></p> <p>Develop original knowledge in a chosen field through advanced research and preparing of a thesis of original findings.</p> <p><b>Duration:</b> 3–4 years full-time</p>

Note: This page is a guide only – entry requirements and durations may vary between degrees.

# Unlock your potential with postgraduate study

An Adelaide University postgraduate degree can bring a wide range of benefits to your life. Our contemporary and flexible approaches to teaching and learning enable you to personalise your study experience and upskill on your own terms. Whether you're looking to take your career forward or in a new direction, improve your employment prospects, or experience the joy of learning by studying an area of personal interest, we can help you to realise your ambition.

On average, Australians with postgraduate qualifications earn more than \$25,000 AUD per year more, than those who only hold an undergraduate qualification (*QILT Graduate Outcomes Survey, 2024*).

[qilt.edu.au/docs/default-source/default-document-library/2024-gos-national-report.pdf?sfvrsn=9f40f76\\_2](https://qilt.edu.au/docs/default-source/default-document-library/2024-gos-national-report.pdf?sfvrsn=9f40f76_2)

## Increase your salary

A postgraduate degree is an investment in your future earning potential.

## Advance or change your career

You'll be well positioned to take the next step, whether a new job opportunity or a complete career change.

## Build your network

Studying is a great way to make connections, leading to valuable networking opportunities and lifelong friendships.

## Develop skills for life

Be inspired and stimulated as you introduce new ways of thinking to all aspects of your life.

# Exceptional student experience

Adelaide University celebrates diversity and student voices. Our vibrant and inclusive student community is a place for you to feel empowered, whilst continuing to explore your passions and advance your career.

We're here to support you on your student journey, from day one. On campus and online, you'll have access to dedicated teaching and supporting staff, and a wide range of services.

[adelaide.edu.au/life-at-adelaide/student-life](https://adelaide.edu.au/life-at-adelaide/student-life)

## Aboriginal student services

Culturally safe and dedicated support services including scholarships, study help, peer mentoring and more, are available to Aboriginal students both on campus and online.

## Academic support

Whether you need general study guidance or more specific assistance, we've got you covered. You'll have access to writing, study skills and support, along with peer-led learning and 24/7 online support, so you can get help anywhere, anytime.

## Access and inclusion

If you have a disability, impairment, chronic health condition, or significant caring responsibilities, you can access confidential and personalised advice, adjustments and support through online services to help you reach your study goals.

## Career services

Prepare for a lifetime of success. Attend networking and industry events, build career planning and management skills, access job opportunities and more.

## Counselling

Take care of your personal wellbeing with access to qualified counsellors on campus and online. Sessions are free, confidential and available regardless of your location.

## Health clinics

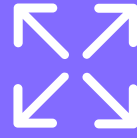

Stay healthy by accessing a range of on campus health clinics at reduced student rates including GP services, physiotherapy, podiatry, psychology and more.

## Orientation

Take the first step toward a fulfilling experience with our Orientation program. Join a campus tour, gain an understanding of your degree, meet people you'll be studying with and enjoy fun activities and events. You'll also be able to participate online through live sessions and virtual tours.

## Religious needs

Private prayer rooms are available across most of our campuses. You can also join a faith-based student group or connect with a range of religious chaplains and pastors on campus.

**Wide range  
of services**

**Dedicated teaching  
and support staff**

### **Sports and fitness**

Join a sports team, take a group fitness class, or hit an on campus gym or pool between classes. There's something for everyone to stay fit and feel good.

### **Student clubs, societies and association**

Your student association is the voice and social heart of your student experience. With a wide variety of clubs and societies, you'll be sure to find your people and your passion.

### **Join a global network**

As a graduate of Adelaide University you'll become part of one of the largest alumni groups in Australia – joining our community of more than 400,000 alumni from 150 countries. Our alumni network will enjoy access to services, career advice and employment opportunities, discounts, events and graduate experiences.

# Applying to Adelaide University

## Step 1

### Explore your study options

Researching your study options is an important first step, and there are many different tools and resources available to help you. Explore some of our featured programs in this brochure, or head to our website to view all postgraduate study options:

[adelaide.edu.au/study/#postgraduate](https://adelaide.edu.au/study/#postgraduate)

Attending our Open Days is another great way to get a feel for what university life is like and to learn about the range of services available to support you during your university studies. If you need personalised advice, book a time to chat with a postgraduate recruitment specialist – they're here to help with any specific questions you may have.

International student application process  
[adelaide.edu.au/study/international-students/how-to-apply](https://adelaide.edu.au/study/international-students/how-to-apply)

## Step 2

### Check you meet the eligibility and entry requirements

All degrees have specific entry requirements that you have to meet in order to be eligible for entry into a degree. Each degree will have different entry criteria, so it's important to find out what these are and make sure you can meet them.

## Step 3

### Apply

Applications open in early August for study commencing in the following year. You can apply for your chosen degree via the SATAC website, or in some instances direct to Adelaide University. Check the specific program page to clarify.

Before you apply, it's a good idea to familiarise yourself with the application process. Note important deadlines and key dates, any supporting documentation as well as SATAC fees and charges and when to pay. For more information, visit the SATAC website: [satac.edu.au](https://satac.edu.au)

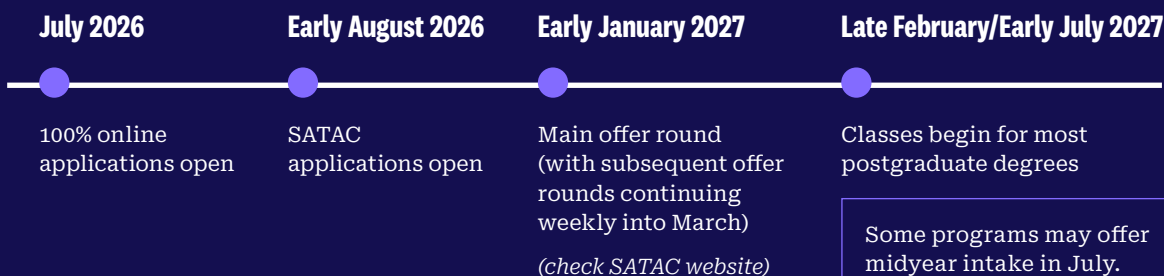

### Apply for 100% online

If applying for a 100% online program you apply directly to Adelaide University and not via SATAC.

[adelaide.edu.au/study/online](https://adelaide.edu.au/study/online)

### Key dates

Some programs may offer midyear intake in July. Visit our website for more info and key dates.

# Featured programs

## Master of Artificial Intelligence and Machine Learning

<b>SATAC code</b>	ACM117	<b>Duration</b>	2 years full-time
<b>Start date</b>	Feb, July	<b>Campus</b>	Adelaide City
<b>Fees</b>	Commonwealth Supported		

Are you ready to lead the future of technology? Create smart systems that revolutionise industries. Design algorithms that run self-driving cars or build predictive models that enhance healthcare. The possibilities are endless. Develop practical skills in programming, machine learning and ethical artificial intelligence (AI) while exploring cutting-edge topics like generative AI and deep learning. With demand for AI professionals booming worldwide, you'll be ready to innovate and make a real difference in fields like robotics, data science and beyond. Shape the future using artificial intelligence with an Adelaide University degree.

### Career outcomes

With the Master of Artificial Intelligence and Machine Learning at Adelaide University, you'll gain the skills to revolutionise industries and shape tomorrow's technological landscape. Imagine developing AI systems that predict disease outbreaks, optimise sustainable energy solutions or create models that forecast climate change impacts.

You could work at renowned tech giants like Google, Amazon or Apple, pushing the boundaries of what's possible. You might become an AI research scientist pioneering new algorithms. Perhaps you'll get a role as an AI ethics specialist ensuring responsible technology development.

The AI revolution is transforming every sector, from healthcare and finance to environmental conservation and space exploration.

Other exciting roles you could pursue include:

- AI product development specialist
- Machine learning engineer
- AI integration consultant
- Natural language processing specialist.

### Accreditation

This program is provisionally accredited at the level of Professional by the Australian Computer Society (ACS). Graduates are eligible for membership with the ACS and are recognised internationally through the Seoul Accord.

## Master of Business Administration (including specialisations)

<b>SATAC code</b>	ACM124	<b>Duration</b>	1.5 years full-time
<b>Start date</b>	Mar, Jun, Aug	<b>Campus</b>	Adelaide City
<b>Fees</b>	Full-fee paying		

The future belongs to those who lead and inspire change. The global business landscape is evolving rapidly. It needs leaders who are ready to tackle complex problems with confidence, creativity and integrity.

If you're looking to upskill, develop entrepreneurial skills, boost your earning potential or advance your career – Adelaide University's Master of Business Administration (MBA) is for you.

Our MBA is a dynamic, engaging and flexible degree that delivers invaluable networking opportunities with peers and industry executives alike. We're the only university in Australia that offers the Australian Institute of Company Directors (AICD) Company Directors Course, preparing you to think and act as a global business leader. Study a general MBA or choose to specialise in:

- Human Resource Management
- Finance
- Marketing
- Sustainable Futures.

### Career outcomes

Take your career to new heights. An MBA is a versatile qualification, meaning you can pursue careers in a number of roles and areas. You might become a corporate strategist, analysing industry trends to inform strategic decisions. Alternatively, you may lead organisational transformations as a management consultant – or launch your own startup venture.

Discover our 100% online MBA options at:  
[adelaide.edu.au/study](https://adelaide.edu.au/study)

## Master of Construction Management

<b>SATAC code</b>	ACM127	<b>Duration</b>	2 years full-time
<b>Start date</b>	Feb, July	<b>Campus</b>	Adelaide City
<b>Fees</b>	Commonwealth Supported		

With a Master of Construction Management, you'll be ready for a vibrant career overseeing diverse projects. From residential to large scale developments, discover how sustainable practices can help minimise environmental impact. Bring ideas and infrastructure to life, creating essential buildings and shaping the built environment to benefit communities and stimulate economic growth.

With multidisciplinary courses and opportunities for industry placements and research, you'll gain strong critical thinking skills adaptable to a variety of roles across residential, commercial and infrastructure sectors.

### Career outcomes

Career options for construction management graduates are many and varied. You might supervise large construction teams in the building of a new hospital, ensuring project milestones are met. Or you may find new ways to reduce energy consumption in residential developments. You might manage site safety, ensuring optimal working conditions for contractors, or become an estimator and calculate crucial costings to ensure a project's financial viability.

Other roles may include:

- Site manager
- Project coordinator
- Building surveyor
- Quantity surveyor
- Estimator
- Construction planner
- Contract administrator.

## Master of Data Science

<b>SATAC code</b>	ACM131	<b>Duration</b>	2 years full-time
<b>Start date</b>	Feb, July	<b>Campus</b>	Adelaide City, Mawson Lakes
<b>Fees</b>	Commonwealth Supported		

Data is everywhere – but it's how we use it that matters. Harness the potential of raw data and translate it into real life discoveries and innovations with the Master of Data Science. Uncover hidden patterns, insights and trends among the quintillion bytes of data and make a tangible impact on how we live, work and interact with the world.

Our degree offers advanced expertise in the data science pipeline, giving you the analytical and interpretative skills required to provide meaningful insights to industry. Focus on courses in machine learning, artificial intelligence integration and leadership.

Understand the intricacies of the world's data, bringing order to chaos and finding solutions for global businesses. Learn how to analyse and visualise rich data sources to predict trends and uncover useful insights. With a Master of Data Science from Adelaide University, you'll be ready to leverage the power of data and become a leader in this exciting field.

### Career outcomes

The field of data science has shown exponential growth in the last few decades. Fuelled by advancements in technology and an abundance of 'data banks', data science has emerged as a critical discipline for industries including finance, healthcare, marketing and cyber security.

You'll graduate ready to lead research and development initiatives in data science across both public and private sectors. Picture yourself a data expert in the world of sports analytics, predicting match dynamics and player performances to catapult teams to success. Or perhaps you'll predict upcoming global trends using machine learning.

Other careers to consider include:

- Data engineer
- Data scientist
- Research scientist
- Machine learning engineer
- Statistician
- Data modeller.

### Accreditation

This program is provisionally accredited at the level of Professional by the Australian Computer Society (ACS). Graduates are eligible for membership with the ACS and are recognised internationally through the Seoul Accord.

## Master of Marketing

<b>SATAC code</b>	ACM171	<b>Duration</b>	2 years full-time
<b>Start date</b>	Feb, July	<b>Campus</b>	Adelaide City
<b>Fees</b>	Full-fee paying		

For as long as businesses sell products and services, marketing professionals will be in demand. Looking to deepen your knowledge in marketing to expand your job prospects? Want to add a new, versatile skillset to your belt? The core principles of marketing – like understanding consumer behaviour and relationship building – are applicable to almost every industry. Adelaide University’s Master of Marketing will arm you with the strategies and concepts to satisfy market demands and help businesses succeed. With the rise of digital marketing and our globalised environment, it’s an exciting time to advance your knowledge in this field.

### Career outcomes

As a Master of Marketing graduate, you’ll be ready to progress your career in marketing and other related fields. You might become a brand manager, developing marketing strategies to build and maintain a brand’s public image. Maybe you’ll become an account manager at a marketing agency, giving marketing advice to businesses to reach their sales targets. Perhaps you’ll work in e-commerce, overseeing online sales strategies and customer experience.

You may also be employed in the following roles:

- Campaign manager
- Consultant
- Content strategist
- Digital marketing specialist
- Marketing analyst
- Marketing and communications manager
- Marketing manager.

## Master of Public Health

<b>SATAC code</b>	ACM212	<b>Duration</b>	2 years full-time
<b>Start date</b>	Feb, July	<b>Campus</b>	Adelaide City
<b>Fees</b>	Commonwealth Supported		

Dedicate yourself to improving the health and wellbeing of communities locally and globally. Our Master of Public Health is your chance to make a tangible impact on a larger scale. Instead of focusing on individual clinical treatments, you’ll take a holistic approach that considers the health of entire populations. Prevent disease outbreaks by curbing the spread of infectious diseases. Analyse and solve complex health challenges. Shape and implement new policies, reducing the burden on our health system. Build a meaningful career tackling health disparity and make our society fairer, healthier and safer.

### Career outcomes

The Master of Public Health is a versatile degree that leads to a variety of fulfilling careers in the health sector. You could work with communities to tackle emerging health challenges like vaping or vaccine hesitancy. Perhaps you’ll be a key voice in guiding the nation during the next major health crisis. You might design and lead public health campaigns in developing countries, or you could become a research officer, contributing to clinical trials and advancing medical knowledge in areas like antimicrobial resistance.

Other potential roles include:

- Policy adviser
- International development worker
- Project development manager
- Ministerial adviser
- Community development officer
- Non-government organisation worker
- Clinical studies coordinator
- Development officer
- Data analyst
- Database coordinator.

## Master of Strategic Communication

<b>SATAC code</b>	ACM221	<b>Duration</b>	2 years full-time
<b>Start date</b>	Feb, July	<b>Campus</b>	Adelaide City
<b>Fees</b>	Full-fee paying		

In an era of constant chatter and demands on our attention, it is more difficult than ever for organisations and businesses to get their messages out when it matters most.

Which is why, no matter the sector, professionals with the expertise to cut through the noise to inspire, connect and influence are highly sought after.

Our Master of Strategic Communication equips you with the versatile skillset needed to lead strategic communication planning, management and execution across all key digital and non-digital channels – in any sector, anywhere in the world.

### Career outcomes

As a graduate you'll emerge equipped to lead strategic communication in any sector, anywhere in the world.

You might take up a role as a corporate communications manager, developing and implementing communication strategies designed to enhance a company's image and reputation. Maybe you'll lead rebranding initiatives for large, global organisations as a global brand manager. Perhaps you'll become a crisis communication consultant, advising businesses on how to communicate effectively and manage public perception in the event of product recalls or organisational restructures.

Some career paths you could pursue include:

- Communications director
- Public relations manager
- Marketing manager
- Social media manager
- Content strategist
- Media relations manager
- Brand manager
- Community relations manager
- Public affairs specialist.

## Master of Teaching

<b>SATAC code</b>	<b>Early Childhood Education:</b> ACM222 <b>Primary:</b> ACM223 <b>Secondary:</b> ACM236 – English ACM237 – Health, Physical and Outdoor Education ACM238 – Humanities and Social Sciences ACM239 – Languages ACM241 – Mathematics ACM242 – Psychology ACM243 – Science ACM244 – Technologies ACM245 – The Arts		
<b>Campus</b>	<b>Early Childhood Education:</b> Magill or Mawson Lakes <b>Primary:</b> Magill or Mawson Lakes <b>Secondary:</b> Adelaide City or Mawson Lakes		
<b>Start date</b>	Feb	<b>Duration</b>	2 years full-time
<b>Fees</b>	Commonwealth Supported		

Leverage your knowledge from a previous degree, aligned to the Australian Curriculum, and get the qualification you need to teach in your specialised area. Our postgraduate teaching degrees prepare you to educate and inspire learners from early childhood through to secondary school. You'll build strong, research-informed teaching skills, gain extensive practical experience, and graduate with a qualification recognised for teacher registration in South Australia.

These programs equip you to nurture children from birth to age eight, spark curiosity in primary students from Reception to Year 6, or guide adolescent learners from Years 7-12 in specialist secondary subject areas – opening doors to an impactful career in teaching.

Choose from the following degrees:

- Master of Teaching (Early Childhood Education)
- Master of Teaching (Primary)
- Master of Teaching (Secondary).

### Career outcomes

Graduate with a qualification recognised by the Australian Children's Education & Care Quality Authority (ACECQA)\* and the Teachers Registration Board of South Australia. Graduates of this program may register to teach in South Australia, and in most cases, interstate and overseas (please check interstate and international countries for specific registration requirements relevant to those jurisdictions).

### Accreditation

This program is accredited by the Teachers Registration Board of South Australia (TRB). Graduates of this program may register to teach in South Australia, and in most cases, interstate and overseas (please check interstate and international countries for specific registration requirements relevant to those jurisdictions).

\* ACECQA accreditation is through the Master of Teaching (Early Childhood Education) only.

## Master of Education

<b>SATAC code</b>	ACM144	<b>Duration</b>	2 years full-time
<b>Start date</b>	Feb, July	<b>Campus</b>	Adelaide City, Magill, Mawson Lakes
<b>Fees</b>	Commonwealth Supported		

Our Master of Education is designed for professionals working in the education industry including school leaders, teachers, educational consultants and trainers wishing to pursue leadership opportunities within schools. It is also suitable as preparation for higher education teaching, or to transition into research. Reflect on and expand your leadership and management skills across diverse settings and build a formidable toolkit to help you drive meaningful change.

### Career outcomes

You'll graduate from this degree ready to lead meaningful change in education. You could also be a:

- Principal
- Vice principal
- Curriculum developer
- Education consultant
- Instructional coordinator
- Special education specialist
- Educational counsellor.

# Postgraduate study at Adelaide University

## Scholarships

Adelaide University is committed to providing educational opportunities by offering a range of scholarships. We're dedicated to ensuring students from all walks of life can access higher education. A scholarship could be the incentive you need to launch your future with us and ensure you're prepared to step forward with confidence toward your career goals.

We're here to support your studies and help you thrive at university. Become the best you can be with an Adelaide University scholarship.

For further information visit: [adelaide.edu.au/study/scholarships](https://adelaide.edu.au/study/scholarships)

## HECS Higher Education Loan

A HECS-HELP or FEE-HELP loan allows students to borrow from the Australian Government to cover some or all of their student contribution.

To be eligible for HECS-HELP, you must be studying in a Commonwealth Supported Place. To be eligible for either HECS-HELP or FEE-HELP you must be an Australian citizen.

FEE-HELP is for students that are studying full-time paying programs. HECS-HELP and/or FEE-HELP will be a debt recorded with the Australian Taxation Office (ATO). Students then become responsible for repaying this debt later through the Australian taxation system.

For more information on HECS-HELP or FEE-HELP loans, visit: [studyassist.gov.au](https://studyassist.gov.au)

## Student services and amenities fee

Students are charged an annual student services and amenities fee (SSAF) to assist with the funding of student services and amenities at Adelaide University. Eligible students may defer this fee to an SA-HELP loan.

## Additional costs

Students may be required to pay for specialist equipment and reading materials, or may incur other incidental costs throughout their studies. Students are advised not to purchase any equipment until they receive their faculty/school handbook, available during Orientation.

## 2027 fees and costs

Student Contribution amounts for Commonwealth Supported Places are regulated by the Government. Contributions are calculated at the course level, not the program level, according to the area of study that each course falls within. As a guide the 2026 Student contribution bands are shown below. The Government indexes Student Contributions annually.

[adelaide.edu.au/students/student-services/finances/commonwealth-supported-students](https://adelaide.edu.au/students/student-services/finances/commonwealth-supported-students)

## Unique Student Identifier

A Unique Student Identifier (USI) is your individual education number for life. It creates an online record of your education and training undertaken in Australia. If you are at university you need a USI. Without one, you cannot receive Commonwealth financial assistance, or your qualification or statement of attainment.

For more details, visit: [usi.gov.au/students/get-a-usi](https://usi.gov.au/students/get-a-usi)

## More information

Find answers to your questions using our online 'Frequently Asked Questions page', or our helpful staff can respond.

# Study 100% online

Study with us from anywhere in Australia.

**W**hether you're looking to advance in your field or it is time for a career change, our 100% online mode might be what you're looking for. We offer the chance to study to anyone in Australia, with 50 programs covering Business, Marketing and Communication, Health Science, Construction, and Psychology.

## Flexible learning for busy people

Our courses are designed to give you the flexibility to study on your own terms, with learning resources available on-demand. Fit study around your work, family, and life commitments without compromising the quality of your education.

## Designed and delivered by our experts

We're committed to creating quality programs and learning experiences. Our academics create learning materials with the latest insights from industry, which our online learning experts bring to life using interactive technology and tools like videos, quizzes, and podcasts.

## Studying online doesn't mean studying alone

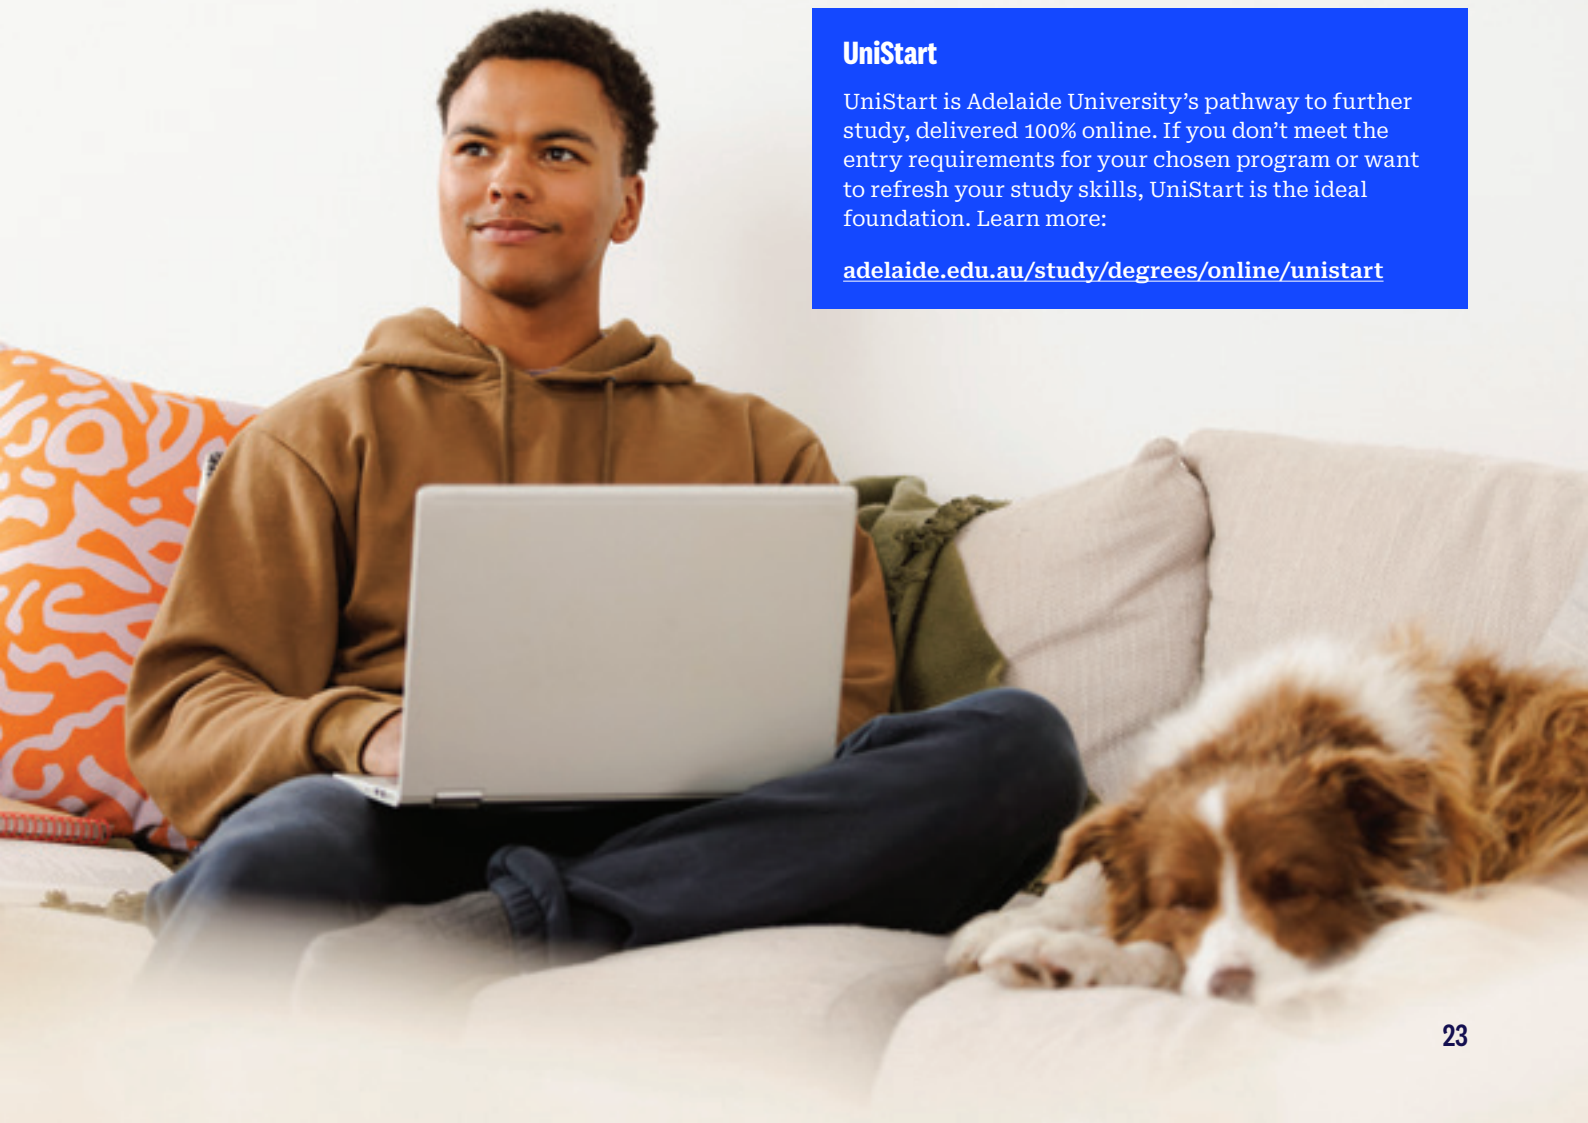

You'll be supported throughout your 100% online studies by a dedicated Student Assist Officer and have access to academic and technical support seven days a week - even outside of regular hours. You will also become part of our online learning community with the opportunity to connect with other students across Australia.

[adelaide.edu.au/study/online](https://adelaide.edu.au/study/online)

## UniStart

UniStart is Adelaide University's pathway to further study, delivered 100% online. If you don't meet the entry requirements for your chosen program or want to refresh your study skills, UniStart is the ideal foundation. Learn more:

# Future-making research

## Our researchers create ideas that shape tomorrow.

They dream big, think deeply and challenge assumptions so we can make the world a better place. We forge dynamic partnerships, always collaborating to ensure our impact is future-defining, transformative and enduring.

Operating on a large scale, we have more capacity for breakthroughs and a greater appetite for change. We work with industry, government and community to make ideas real – from protecting our planet to shaping global food systems and supporting human health.

Our research will transform South Australia's economy and accelerate its leadership on a global scale.

Find out more about our research:
