

Student Health and Safety Information – Work Integrated Learning (WIL) activities

All students are asked to carefully read and respond to the information below (as it relates to their circumstances) prior to each WIL activity.

WIL activities may include but are not limited to field trips, internships, placements, industry visits.

Whilst participating in a WIL activity it is important that students ensure they are adequately prepared and have appropriate supports in place to safely participate.

For students with a disability or health condition which may impact on your capacity to fully participate, it is important that the WIL Coordinator/Supervisor understands your requirements in advance to ensure the activity is safe for you (and for others). To assist we need to:

- understand how you will manage your disability or condition during the activity,
- determine Reasonable Adjustments if needed,
- ensure appropriate support is available should it be required during the activity.

Please note we do not need to know your specific disability or health condition, but rather the potential impacts to be managed.

If you do have a disability or health condition please tick the relevant statements:

- Prior to the planned activity I will ensure the WIL Coordinator/Supervisor is informed of any specific requirements and health plans in place to assist me to safely to participate in the activity.*
- During the activity I will be pro-active in managing my health, including being responsible for taking my own medication (when relevant) and do not require additional support.
- I will inform my WIL Coordinator/Supervisor as soon as possible if I require additional support or I am starting to feel unwell or my health circumstances change during the WIL activity. I understand my WIL Coordinator/Supervisor may need to follow up as necessary with relevant parties (i.e. emergency contact people I have provided, University Student Support Services, or relevant Faculty staff).
- I understand I may be required to provide further health documentation to assist staff to prepare for this WIL activity.

If, after completing this information your health condition changes, please contact your WIL Coordinator/Supervisor to provide the additional information.

*Be advised your WIL Coordinator/Supervisor will make contact with you if you require planning prior to the activity.

Disability Support

If you would like a confidential discussion about your particular health circumstances, and how they relate to this WIL activity and/or your studies generally, please contact Disability Support on 8313 5962 or visit <https://www.adelaide.edu.au/disability/>.

If you are already registered with Disability Support please contact your Disability Advisor if further assistance is required for this WIL activity.
